BLUE MOON

THURSDAY, AUGUST 31st 2023 — 19:30
AT SELENE WINEBAR

*'Once in a Blue Moon'
have you experienced such a gracious and glorious evening!*

On the 31st of August we will all have the rare chance of seeing a blue moon, which at the same time will be a supermoon, resulting in a Super Blue Moon. A blue moon unfortunately is not actually blue, but it is kind of unique, as it is the 13th full moon in the same year, which normally has only 12 to show for.

To celebrate this scarce seeing, and the last summer full moon, we have designed a most prestigious event in the graceful ambiance of Selene Wine Bar. We can not reveal much, but we can say this: amazing wines, delicious bites, gracious decorations, and live music will be involved!
